PEST O SHIELD
MOSQUITO
ELIMINATOR

Mosquitoes being a blood eating pest, whose tube like mouth parts pierce the skin and cause an irritating rashes. The routine bites of mosquitoes are extremely harmful and may transmit disease such as malaria, dengue fever, low blood pressure, etc.. They lay eggs in stagnant water, plants, lakes , plastic buckets, flower pot saucers... and are a biggest and serious nuisance to deal with.

PEST O SHIELD
TERMITES
ELIMINATOR

Termites are known for damaging all kind of woods including the tables, shelves, storage doors, etc... They feed on cellulose for nutrition; and it is that cellulose is found in woods. The threats of infestation caused by termites are on higher note. They leave a "chemical trail" for others to follow. They only need a crack to gain entrance into your restaurant, once in, they can infest everything. Termites work 24 hours a day without resting

PEST O SHIELD
BEDBUGS
ELIMINATOR

Bedbugs are often reported to be found when sanitation conditions are poor. They live feeding only on blood. They reside in tiny cracks in furniture as well as on textiles and upholstered furniture. They do not build nest, but live in huge groups. They tend to be most common on sofas, curtains; carpet's and corner of wall papers. Bedbugs live for months without feeding, but lay hundred of eggs in a short period

PEST O SHIELD
RODENT
ELIMINATOR

Rodents have been known to damage buildings, contaminate food and also a major reason to cause fire by gnawing the cables of electrical wiring. They're diverse; the rodent family includes rats, mice, bandicoots, gophers, and more. They're also adaptable, extremely fertile (A pair can multiple to 1200 in a year); several dreaded disease including Leptospirosis are transmitted due to them. Thus controlling them is a real challenging task

PEST O SHIELD
COCKROACH
ELIMINATOR

Cockroaches enter your building through cracks and drain pipes. Many diseases including allergies and asthma are caused through them. They remain active and keep multiplying all over the year. They are known for flying berserk everywhere, emitting unpleasant odors and making chirping noise, which can easily create havoc at your home

TESTIMONIALS

- We had quiet a lot of Rodent menace in our Restaurants, but now completely solved. Thanks to PEST O SHIELD team

- Mr. Chandrasekar Shetty **Ramakrishna Group of Hotels**
- Prompt & timely service follow ups. Happy with your work

- Mr. Raghuram Shetty **The AVENUE**
- Earlier had taken services from many well known and reputed pest control firms, but they weren't able to curb the menace. PEST O SHIELD has done a great job. Thank you

- Mr. HarishShetty **Radhakrishna**
- Keep up the Excellent job and maintain the same always. All the best

- Mr. Sanay Shetty **Satkar Group Thane**
- We used to spend a huge amount every month on A/C sensors and electricals due to Rodents. Finally it was PEST O SHIELD who gave us relief. Thanx Team PEST O SHIELD.

- Mr. Glen Serrao **Navratna Group Vashi**
